Shinning stars with Oscar

Zuhail Özbay

Students create their own advertisement of some products with the help of their parents or friends. The use of English with a real communicative purpose will encourage students to use their creative ideas and will help to improve their knowledge in English.

[Semiha Donuktan](#)

We have a lot to share

Sharing information about our culture and daily life by using English effectively.

[Deniz Tekiner Tozduman](#)

We dress for the weather

In this Project; we aimed to show how the weather and the seasons will affect the human life, fruit and vegetable prices.

Sustainable Consumption and Production

Our point in creating this Project was to help students to improve their consumption behaviors in correct way. We focused on environmental problems because it is a serious problem in everywhere between teenagers.

[Beytullah Önce](#)

Depth of Space

It aims develop a better understanding of space, science and technology. It is also an interdisciplinary project for English teachers.

Better Together

Using web 2 tools, cooperation among English Language teachers, preparing and sharing **worsheets** or links.

Stem Club

Kadriye Güven

The aim of our project is to use STEM activities, coding, participation in the **European** code week, robotics, increased reality applications, creation of a test bank and technology to the classes and students as much as possible and to use them effectively.

Listen to the voice of nature

To organize activities for increasing the environmental awareness of all students and for protecting nature.

Bullying Free Schools

Bullying which has been the most significant problem of all societies has a widespread impact on school climate and it has been around in different forms.

Nomophobia

Especially make our 8th grade students more conscious of using the technology more efficiently and physically ease them with activities we will do before the exam.

Ice Breaking Activity
