

November
presentations
out the factors
using the fire
d the
cautions to be
ken were made

HOW SAFE IS OUR HOUSE? E TWINNING PROJECT

PROJECT FOUNDEES
BURCU SKI AND
NECLA TEMEL

We are 21 members
in this project

Our project is
aimed at raising
awareness of
domestic accidents
and fire safety

Our first
presentation was
in November 2021

It is a pleasure to
announce that the
domestic accidents
and fire safety
project

To raise awareness
about the domestic
accidents.
Informing parents,
teachers and pupils

Factors that could cause the natural gas poisoning
were investigated.

We did tagul work on fire.

***We are 21 members
in this project***

It is a national project

*domestic accidents
one of the most
frequent accidents
at the beginning of
serious injured and
fatal accidents.*

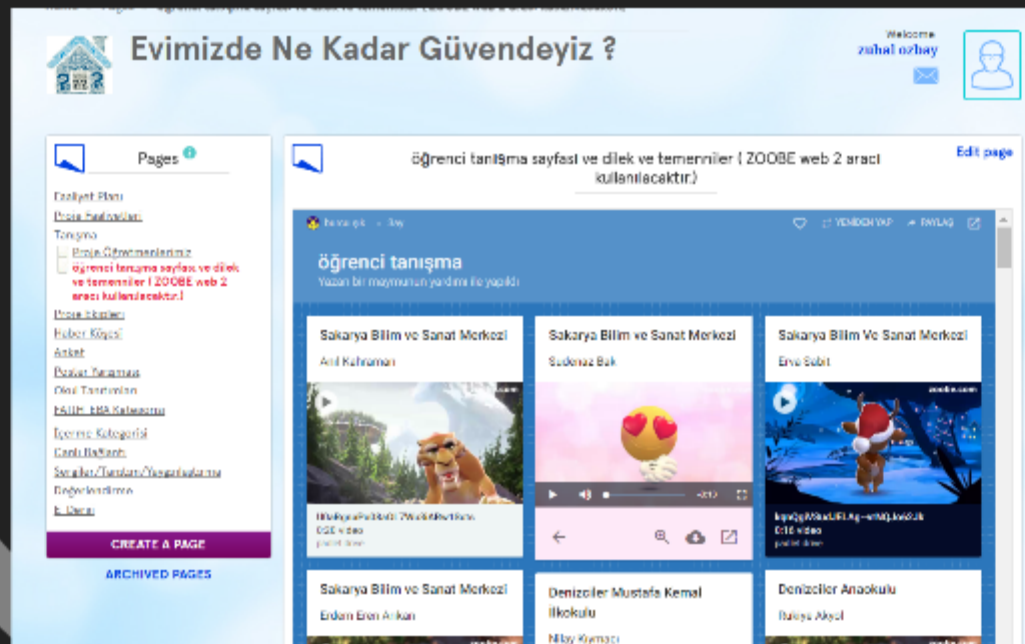

Age group is 5-11
The work is planned monthly periods for
10 months.
Students take an active role in research,
observation, board editing, presentation.

*To raise awareness
about the domestic
accidents,
informing parents,
teachers and pupils*

Age group is 5-11
The work is planned monthly periods for
10 months.
Students take an active role in research,
observation, board editing, presentation.

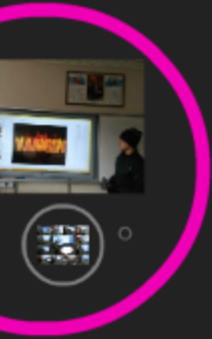

Teachers introduced themselves at the beginning of the project & Students use the zoobe tool while introducing themselves.

from May to September, project ideas were formed and project teams were established.

*In October, a
reaserch about the
domestic accidents
was done by every
partner*

In November
presentations
about the factors
causing the fire
and the
precautions to be
taken were made

we also include refuge
families in or schools
and point out the
hazards that they face to

We did tagul work on fire.

Research was done on the factors that would cause chemical poisoning such as drug cleaning and a pano was prepared.

News about
house
accidents in
our city was
collected.

We did a survey on house accidents.

Kahoot was also carried out as a project evaluation work.

at last 18 members out of
21 got the National
eTwinning Quality lable
